

EDITORIAL NOTE

Dear colleagues and research partners,

*The journal **Medicine and Materials** was founded from the aspiration to create a shared scientific space for specialists exploring the intersection between **medicine, materials science, and dentistry** – a continuously expanding field where technological innovation and medical progress converge to improve the quality of life.*

*Our publication aims to highlight original studies and high-level reviews that contribute to the understanding and application of **biomaterials, implants, prostheses, medical devices, and emerging technologies** in medical and dental practice. We envision **Medicine and Materials** as an open platform for scientific dialogue, interdisciplinary cooperation, and the exchange of ideas among researchers, clinicians, and innovators worldwide.*

*Through a rigorous peer-review process and high editorial standards, the journal encourages the publication of works that make a **genuine contribution to scientific progress**, strengthening the connection between research and clinical application. We firmly believe that the true value of science lies in its impact on human health and well-being.*

*Looking toward the future with confidence, we hope that each issue of **Medicine and Materials** will serve as a source of inspiration, a mark of academic excellence, and a bridge between research, innovation, and practice. We express our sincere gratitude to all authors, reviewers, and collaborators whose commitment and expertise support this endeavor and help build a scientific community devoted to responsible and meaningful progress.*

With sincere appreciation,

*Professor Dr. Habil. **Kamel EARAR**
Editor-in-Chief, **Medicine and Materials***
